

LSI Standards TRACKER

Minute to minute monitoring Ensure all students hit daily learning targets

Why wait until the end of the year to know whether students are hitting learning targets? Make everyday a bullseye with the Standards Tracker, a mobile-based app that makes standards-based learning approachable—and even, dare we say, fun! You'll strengthen core instruction while encouraging students to become partners in learning with a stake in ownership. Above all, Standards Tracker allows you to measure student performance during a lesson, on the fly—only then can you close stubborn learning gaps and prioritize valuable class time.

- Access ELA and Math standards from all 50 states
- Discover clear evidences of learning for each target
- Close stubborn achievement gaps—for good
- Prioritize class time to maximize learning
- Easily monitor student progress on any tablet or smart phone
- Share data for improved collaboration and planning with colleagues
- Know immediately whether instruction is effective and adjust on the fly

This robust, web-based platform enables teachers to share data with other educators, promoting a unique blend of calibration and professional growth. With just a few clicks, teachers can create and share standards-based learning targets aligned with performance tasks and success criteria.
